

Get PMP Certified... Now!

RISE

**Richmond Information System
Educators**

*A non-profit training consortium, which
schedules quality IT training at reasonable
price to members in Richmond, VA.
Established 1980*

The PMP® Certification is the most recognized and respected credential in the field of project management. In fact, some industries such as the government sector are beginning to require that all project managers possess this highly esteemed qualification. The Rapid PMP® Certification Program prepares students to pass the coveted PMP® exam while developing their project management skills and proficiencies along the way.

The Rapid PMP® Certification Program consists of three accelerated workshops designed to give project managers a working knowledge of key project management components. The first two workshops cover state-of-the-art techniques for managing projects across the entire lifecycle, while the third workshop focuses entirely on preparing students for the PMP® exam.

Project Management Fundamentals

03/06/2007 - 03/08/2007
05/22/2007 - 05/24/2007

Participants learn state-of-the art techniques for developing comprehensive project plans, getting management buy-in, and estimating and scheduling project tasks with accuracy and sophistication.

Advanced Project Management

03/27/2007 - 03/29/2007

Time. Cost. Scope. Participants learn to keep these three dimensions in harmony across multiple projects amidst unexpected events.

PMP Exam Preparation

04/19/2007 - 04/20/2007
06/21/2007 - 06/22/2007

This workshop focuses on key concepts in each of the processes and knowledge areas. The final workshop exercise involves creating a project plan for preparing for and passing the PMP® Certification exam.

Making Projects Work

04/25/2007 - 04/26/2007

Participants will acquire advanced interpersonal skills and learn consensus-building techniques that help provide clarity and garner commitment from team members, customers and management.

Advanced Project Leadership

06/07/2007 - 06/08/2007

This workshop is designed to help project managers become better team leaders by honing their skills in the key areas of communication, motivation, expectation setting and problem resolution.

Creating High Performance Project Teams

06/26/2007 - 06/27/2007

This workshop teaches project managers how to fully utilize the talented individuals in their project teams to achieve project and organizational success.
